

Product data sheet

LED sensor foot switch

*

Switch for activating automatic doors

AREAS OF APPLICATION

- For convenient activation of automatic doors from the floor
- Preferred for use in restaurants or hotel areas

LED sensor foot switch *

PRODUCT FEATURES

- Touch-sensitive capacitive push button with blue/red LED illumination
- Long service life - more than 100 million hystereses
- Continuously illuminated blue (can be switched off), illuminated red when touched
- Very high IP rating of 69K
- Shock-resistant and protected from vandalism by protection degree IP08

TECHNICAL DATA

Productname	LED sensor foot switch *
Dimensions	100 x 100 x 17 mm
Current consumption	30 mA
Output	PNP transistor output
IP rating	IP69K
Type of installation	Floor
Cable connection type	Cable prepared for connection to screw terminal
Connector cable length	2000 mm
Material	Stainless steel
Service temperature	-30 - 80 °C

VARIANTS / ORDER INFO
